

Product	Dolomitic lime putty Slaked lime Lime putty, lime paste, hydrated dolime
Substance name	Calcium magnesium (di)hydroxide oxide, $\text{Ca}(\text{OH})_2\text{MgO}$
Manufacturer	InterCal Croatia d.o.o., Ruđera Boškovića 52, 43 541 Sirač Kamenolom Čardak, Ličko Lešće 3, 53 220 Otočac tel: + 385 (0)43 322 129, fax: + 385 (0)43 442 015, e-mail: info@intercal.hr
Use	Wall painting, protection of trees by coating, protection of trees and vineyards by spraying
Chemical composition	Slaked lime and water
Additional properties	Product does not contain any additives.
Application	White colour, material of medium viscosity 1. Wall painting Product dilute with water (10 - 15% water), mix thoroughly and apply three layers with brush or spraying device. The second layer is applied to previously dried first layer (min. 12 hours). It is particularly desirable to coat the walls of rooms where food, fruit or vegetables are stored, as well as wine cellars, cellars, warehouses, barns, poultry farms and similar facilities. 2. Protection of fruit trees by coating Add 200 g of kitchen salt to 8-10 kg of product, dilute with 10% of water if necessary, mix thoroughly and apply to fruit trees. The coating protects the fruit from pests and mild frosts and provides protection against bark crushing. 3. Protection of fruit trees and vineyards by spraying (Bordeaux Soup) In 10 L of water, dissolve 200 g of blue gal (copper (II) sulfate pentahydrate), add 350 g of the product, 10 g of sugar, mix thoroughly, filter and use the same day.
Storage	Dry area; do not allow freezing
Expiration date	Indefinite, in original packaging
Means of delivery	Plastic buckets 5, 10 and 18 L

Hazard pictogram

HAZARD STATEMENTS

H315: Causes skin irritation
